

2ND QUARTER • 2019

COMPARATIVE ASSET ALLOCATION FOR US PRIVATE CLIENTS

NOTES ON THE DATA

DATA COLLECTION. Included in this analysis are 110 investment portfolios representing 80 US-based private clients that received performance reporting services from Cambridge Associates as of June 30, 2019. The average market value of participating private client investment pools is \$223.3 million, and the median market value is \$81.6 million as of June 30, 2019. The notation of n denotes the number of private clients included in each analysis.

ASSET ALLOCATION METHODOLOGY. Asset allocation is generated using the investment manager structure for each client. Every investment product, fund, and vehicle that a client is invested in is assigned an asset class. Asset classes for a given investment product, fund, or vehicle are maintained across all clients to ensure comparability. The statistics throughout this analysis are calculated on an equal-weighted basis.

Global portfolios are broken out into US, developed, and emerging markets equities. In cases where the underlying holdings are not available to Cambridge Associates for a particular global portfolio, a 50% US/50% developed markets allocation is reflected.

Legacy holdings that a client still maintains as part of its investment pool can be included in this analysis. These long-held securities can fall under several categories including, but not limited to, securities with a very low tax basis or securities that the owner does not intend to sell for personal reasons.

In Figures 1, 3, and 4, bonds includes US bonds, global ex US bonds, and high-yield bonds; hedge funds includes long/short hedge funds and absolute return (ex distressed securities); private equity and venture capital includes non-venture private equity, venture capital, and other private investments; and real assets and inflation-linked bonds includes public and private real estate, commodities, inflation-linked bonds, private oil & gas/natural resources, timber, and public energy/natural resources.

PEER GROUPING. The Cambridge Associates endowments and foundations universe includes colleges and universities, cultural & environmental institutions, healthcare institutions, independent schools, and other endowed nonprofit institutions, as well as foundations. ■
